Brett Cranston Joins Kemin Crop Technologies Team

Cranston to support the sales growth of the crop technologies initiative

Des Moines, Iowa (April 18, 2017) – Kemin Crop Technologies, an initiative of Kemin Industries focused on providing solutions for commercial greenhouses and commercial horticulture, has named Brett Cranston to the role of sales manager, effective immediately.

Cranston will be responsible for the direct sales of Kemin products to commercial horticulture operations focusing on fruit and vegetable markets across the United States. He will establish and grow strong relationships with integrated pest management (IPM) managers, plant health specialists, pest control advisers (PCAs) and business owners to promote product knowledge and cost effective, solution-based IPM programs.

“Brett will have the opportunity to go beyond the role of a sales manager and take a lead role in the strategic planning and evolution of the crop technologies initiative in the horticulture industry,” said Riaan van Dyk, Worldwide Vice President of Marketing and Strategy for Kemin Industries. “We’re excited to bring his perspective and leadership to the team.”

Cranston joins Kemin from Extenday USA Inc. where he served as a technical field and sales support member. In this role, he worked closely with multi-national teams to make recommendations for growers in Central and Southern Washington region. He is a graduate of Iowa State University with bachelor’s degrees in Agriculture Education and Agronomy.

“I’m looking forward to working closely with our customers to provide tailored solutions to their existing programs to enhance crop performance and profitability,” said Brett Cranston, Sales Manager for Kemin Crop Technologies.
