

## **Kemin Industries Names Haley Stomp Senior Vice President of Marketing**

### **Stomp joins leadership team to drive strategic marketing worldwide**

DES MOINES, Iowa, Jan. 22, 2019 /PRNewswire/ -- Kemin Industries, a global ingredient manufacturer with a focus on improving the quality of life for more than half the world's population, has appointed Haley Stomp, a 16-year company veteran, to lead its worldwide marketing as Senior Vice President, effective immediately.

Stomp joined the company in 2003 as a chemical process engineer for Kemin Health and quickly advanced in her career. She took on increasing responsibility within the business unit, eventually moving into a global product manager position for Kemin and oversaw the worldwide launch of a new enzyme for the company.

Stomp then moved to product management for Kemin Animal Nutrition and Health – North America, before taking on the role of senior marketing manager for the business unit. Shortly after, Stomp was made Director of Marketing and, in 2015, she moved into the executive role of Vice President of Marketing for Kemin Animal Nutrition and Health – North America. Stomp led all marketing initiatives in the business unit, including the expansion of KemTRACE® Chromium throughout the North American agricultural market, before joining the Kemin global leadership team this year.

"I am thrilled to have Haley leading our worldwide marketing efforts and initiatives," said Dr. Chris Nelson, President and CEO, Kemin Industries. "Her experience in various areas of Kemin businesses on both a regional and global scale has given her unique perspective and valuable insight, making her a great fit for this role. Haley has continually demonstrated strong leadership, strategic vision, innovation and creativity that will help build the Kemin brand globally."

Stomp has driven growth in both marketing and sales for Kemin. She has managed all marketing activities for two acquisitions and has developed and implemented new digital capabilities. During Stomp's time in marketing management for Kemin Animal Nutrition and Health – North America, sales and margin tripled. While Vice President of Marketing for the business unit, Stomp generated more than 25 percent growth year-over-year for three consecutive years.

Stomp will lead the Kemin corporate marketing team and collaborate with all 16 Kemin business units to enhance strategic marketing. Stomp succeeds Riaan Van Dyk, who transitioned to the role of General Manager for the new Kemin vaccine business, Kemin Biologics, in late 2018.

Stomp has a bachelor's degree in chemical engineering from Iowa State University and a Master of Business Administration from the Tippie School of Management at the University of Iowa.
