

Updated Kemin Food Technologies Website Provides Rich Industry Insights

Serves as valuable tool for shelf-life extension and the food safety industry

Des Moines, Iowa (February 22, 2017) – Kemin, a leading provider of shelf-life extension and food safety solutions for food and beverage industries, recently launched an updated website for their North America Food Technologies division at www.kemin.com/kemindifference.

“Our website offers new content to help product developers as they look for ways to keep food and beverages fresher and safer for longer,” said Courtney Schwartz, Senior Marketing Communications Manager for Kemin Food Technologies. “It also shares information on the science behind our plant-based extracts, antioxidants and antimicrobial solutions.”

Users can quickly navigate the mobile-friendly pages to find the latest insights on food safety, shelf-life and color stability solutions. Key resources available on the website include:

- Insights focused specifically on bakery and snack, dairy, meat and poultry industries
- “Innovation in a Minute” videos covering current industry challenges
- Technical papers for developers interested in the scientific solutions Kemin provides

“In today’s highly competitive marketplace, Kemin provides food processors, manufacturers and formulators the ability to reduce costs, control inventory and meet demand, all while providing the visual appeal and flavor protection consumers desire,” said Schwartz.
