

Kemin Nutrisurance Launches TEGRAVIA™, a Functional Fiber for Pet Food, in South America

Natural cassava fiber product is a multifunctional option for pet food producers in Brazil

CHAPECÓ, Brazil, April 20, 2021 /PRNewswire/ -- Kemin Industries, a global ingredient manufacturer that strives to sustainably transform the quality of life every day for 80 percent of the world with its products and services, announced that Kemin Nutrisurance, its pet food and rendering technologies business unit, has launched its first fiber ingredient, TEGRAVIA™, for the pet food market in Brazil.

Fiber has long been used in pet food to balance formulations and promote animal health. In partnership with Fibervita, a food ingredient company in Brazil, Kemin Nutrisurance developed TEGRAVIA as a functional fiber for inclusion into pet food. The product's fiber is extracted from cassava, an edible root widely used in various recipes in Brazilian cuisine. TEGRAVIA serves as a fiber source with prebiotic and intestinal health support properties and can also benefit pet food product formulations by enhancing texture and starch gelatinization.

Using a synergistic combination of soluble and insoluble fiber, TEGRAVIA supports the growth of beneficial bacteria and promotes balanced homeostasis in dogs' and cats' gastrointestinal tracts. Kemin has conducted studies, in partnership with the Federal University of Paraná and the State University of Maringá, in which TEGRAVIA was compared to other fibers, including beet pulp and microcrystalline cellulose, in dog and cat microbiota. The results suggest TEGRAVIA can compensate for the inclusion of beet pulp plus microcrystalline cellulose association/combination.

"Our goal at Kemin Nutrisurance is to bring complete solutions to our customers by supplying innovative ingredients, like TEGRAVIA, along with technical, laboratory and application services to support our customers every step of the way," said Valdir Lucatelli, General Manager – South America, Kemin Nutrisurance.

TEGRAVIA is currently available in Brazil, with registration plans in other countries in South America, Europe and North America.

About Kemin Industries

Kemin Industries (www.kemin.com) is a global ingredient manufacturer that strives to sustainably transform the quality of life every day for 80 percent of the world with its products and services.
