

## Kemin Food Technologies – Asia Appoints DKSH Thailand as New Distribution Partner

**SINGAPORE (January 30, 2026)** – Kemin Industries, a global ingredient manufacturer that strives to sustainability transform the quality of life every day for 80 percent of the world with its products and services, has appointed DKSH Performance Materials (Thailand) Ltd. as its new distributor for Kemin Food Technologies – Asia in Thailand, effective today, January 30, 2026.

This strategic partnership strengthens market presence of Kemin Food Technologies – Asia in the country and enhances the business unit's ability to support food manufacturers with advanced solutions to extend shelf life, enhance food safety, and elevate food quality.

"Partnering with DKSH allows us to better serve our customers in Thailand and support them in tackling tomorrow's food challenges," said LiewGin Lim, President, Kemin Food Technologies – Asia. "Together, we aim to help manufacturers maintain product integrity and keep food safer and fresher for longer."

Around the world, Kemin's technologies improve the safety, stability, and sensory experience of food and beverages. The company's Customer Laboratory Services offer tailored scientific support to accelerate product development and market success. In Thailand, DKSH's Food Innovation Center offers laboratory services and evaluations, which will now combine local expertise with Kemin's global innovation to deliver greater value to the Thai food industry.

This collaboration, launched in 2020, builds on a strong regional partnership across Vietnam, Myanmar, Cambodia, the Philippines, and Indonesia. With Thailand coming into the fold this year, Kemin and DKSH will further expand their footprint and enhance service across Southeast Asia.
